

KPM's 24 Channel Module Cell Voltage Meter

Overview

KPM 24BV can quickly test cells voltage in the lithium battery module and judge the balance of the entire battery pack. It has 24-channel which greatly boosts the testing efficiency. It is suitable for the operation and maintenance of lithium battery in after-sales, storage and transportation.

Functional Characteristics

Feature

- 24 channels voltage acquisition, voltage measurement range DC 0-5V
- Data storage function, supports output in the format of EXCEL
- Matches different plug-ins, switchable display in positive or negative order
- Portable design, suitable for quick inspection of lithium battery under various working conditions

Application

Quick inspection of lithium batteries in after-sales, storage and transportation

Technical Details

Model	KPM 24BV
Voltage Range	0.000V-5.000V
Voltage Accuracy	±0.2%FS+5mV@5V
Number of Acquisition String	1-24S
Display	4.7-inch color touch screen
Storage	√
Barcode Scanner Extension	√
Data Port	USB
Dimension (mm)	105*80*56
Weight	0.5
